**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**1 Legal status and principal activities**

Oman Arab Bank SAOC (the Bank) was incorporated in the Sultanate of Oman on 1 October 1984 as a closed joint stock company. It is principally engaged in commercial and investment banking activities through a network of branches in the Sultanate of Oman. The registered head office of the Bank is at Muttrah Business District, PO Box 2010, Ruwi, Postal Code 112, Sultanate of Oman.

The Bank has a management agreement with Arab Bank Plc Jordan, which owns 49% of the Bank's share capital. In accordance with the terms of the management agreement, Arab Bank Plc Jordan provides banking related technical assistance and other management services, including the secondment of managerial staff. The bank employed 1,310 staff as at 30 June 2016 (30 June 2015: 1,216)

**2 PRINCIPAL ACCOUNTING POLICIES**

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), the requirements of the Commercial Companies Law of 1974, as amended and the disclosure requirements of the Central Bank of Oman.

***Basis of preparation***

The financial statements are prepared under the historical cost convention, as modified by the revaluation of investment securities, financial assets and financial liabilities at fair value through profit or loss and all derivative contracts.

***Financial assets***

The Bank classifies its financial assets in the following categories: financial assets at fair value through profit or loss, available for sale investments, loans and advances and held-to-maturity investments. Management determines the classification of its investments at initial recognition.

***Financial assets at fair value through profit or loss***

Financial assets at fair value through profit or loss comprise financial securities held for trading which are acquired principally for the purpose of selling in the short-term and instruments so designated by management upon inception. Financial assets at fair value through profit or loss are initially recognised at fair value and transaction costs are expensed in the income statement. Unrealised gains or losses arising from changes in fair value are included in the income statement in the period in which they arise. Derivatives are also categorised as held for trading unless they are designated as hedging instruments.

***Loans and advances***

Loans and receivables are non-derivative financial assets with fixed or determinable repayments that are not quoted in an active market. They arise when the Bank provides money directly to a debtor with no intention of trading the receivable. Loans and receivables are recognised when cash is advanced to customers and are carried at amortised cost using the effective interest method.

***Available for sale investments***

Available for sale investments are that non-derivative financial assets that are either designated in this category or not classified in any other categories of investment. Available for sale financial assets are initially recognised at fair value including transaction costs. Subsequently these assets are carried at fair value. The changes in fair value are recognised in equity. When assets classified as available for sale are sold or impaired, the accumulated fair value changes recognised in equity are included in the income statement as gains and losses from investments.

NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016

**2 PRINCIPAL ACCOUNTING POLICIES (continued)**

***Held-to-maturity investments***

Held to maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Bank's management has the positive intention and ability to hold to maturity. Were the Bank to sell other than an insignificant amount of held-to-maturity assets, the entire category would be tainted and reclassified as available-for-sale. Held to maturity investments are carried at amortised cost using the effective interest method.

***Fair value measurement principles***

The fair value of financial instruments is based on their quoted market bid price at the balance sheet date without any deduction for transaction costs. If a quoted market price is not available, the fair value of the instrument is estimated based on discounted cash flow and other valuation techniques.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate is a market related rate at the balance sheet date for an instrument with similar terms and conditions.

The fair value of derivatives that are not exchange-traded is estimated at the amount that the Bank would receive or pay to terminate the contract at the balance sheet date taking into account current market conditions and the current creditworthiness of the counter-parties.

***Derecognition***

Financial assets are derecognised when the right to receive cash from the financial asset has expired or when the Bank has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognised when the liability is extinguished.

***Impairment of financial assets***

**(a) Assets carried at amortised cost**

The Bank assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and an impairment loss is incurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. Objective evidence that a financial asset or group of assets is impaired includes observable data that comes to the attention of the Bank about the following loss events:

- significant financial difficulty of the issuer or obligor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- the Bank granting to the borrower, for economic or legal reasons relating to the borrower's financial difficulty, a concession that the lender would not otherwise consider;
- it becoming probable that the borrower will enter bankruptcy or other financial reorganisation;
- the disappearance of an active market for that financial asset because of financial difficulties;
- observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including adverse changes in the payment status of borrowers in the Bank, or national or local economic conditions that correlate with defaults on the assets in the Bank; or
- Any other guidelines issued by the Central Bank of Oman.

**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**2 PRINCIPAL ACCOUNTING POLICIES (continued)**

The Bank first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant. If the Bank determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on loans and receivables or held-to-maturity investments carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the income statement.

The calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

When a loan is uncollectible, it is written off against the related provision for loan impairment. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off decrease the amount of the provision for loan impairment in the income statement.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognised in the income statement.

**(b) Renegotiated loans**

Loans that are either subject to collective impairment assessment or individually significant and whose terms have been renegotiated are no longer considered to be past due but are treated as new loans. In subsequent years, the asset is considered to be past due and disclosed only if renegotiated.

***Fiduciary assets***

Assets held in trust or in a fiduciary capacity are not treated as assets of the Bank and accordingly are not included in these financial statements.

***Offsetting***

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet only when there is a legally enforceable right to set off the recognised amounts and the Bank intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

***Trade and settlement date accounting***

All regular way purchases and sales of financial assets are recognised on the trade date, i.e. the date that the entity commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**2 PRINCIPAL ACCOUNTING POLICIES (continued)**

***Property and equipment***

Property and equipment are initially recorded at cost and are subsequently carried at cost less accumulated depreciation and accumulated impairment losses. The carrying amounts are reviewed at each balance sheet date to assess whether they are recorded in excess of their recoverable amount, and where carrying values exceed this recoverable amount, assets are written down to their recoverable amount. Depreciation is calculated so as to write off the cost of property and equipment, other than freehold land and capital work in progress, using the straight-line basis over the estimated useful lives, as follows:

Freehold property	25 years
Equipment, furniture and fixtures	5 years
Motor vehicles	5 years

Gains and losses on disposal of property and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit. Repairs and renewals are charged to the income statement when the expense is incurred. Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the item of property and equipment. All other expenditure is recognised in the income statement as an expense as incurred.

***Borrowings***

Borrowings are recognised initially at fair value, being their issue proceeds (fair value of consideration received) net of transaction costs incurred. Borrowings are subsequently stated at amortised cost; any difference between proceeds net of transaction costs and the redemption value is recognised in the income statement over the period of the borrowings using the effective interest method.

***Employee Terminal Benefits***

End of service benefits are accrued in accordance with the terms of employment of the Bank's employees at the balance sheet date, having regard to the requirements of the Oman Labour Law 2003. Employee entitlements to annual leave and leave passage are recognised when they accrue to employees and an accrual is made for the estimated liability arising as a result of services rendered by employees up to the balance sheet date. These accruals are included in liabilities.

Contributions to a defined contribution retirement plan for Omani employees in accordance with the Omani Social Insurance Law 1991, are recognised as an expense in the income statement as incurred.

***Taxation***

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is calculated using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016

**2 PRINCIPAL ACCOUNTING POLICIES (continued)**

***Foreign currencies***

**(a) Functional and presentation currency**

Items included in the financial statements of the Bank are measured and presented in Rial Omani being the currency of the primary economic environment in which the Bank operates.

**(b) Transactions and balances**

Transactions in foreign currencies are translated into Rial Omani and recorded at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies, which are stated at historical cost, are translated into Rial Omani at the foreign exchange rate ruling at the balance sheet date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities denominated in foreign currencies, which are stated at historical cost, are translated into Rial Omani at the foreign exchange rate ruling at the date of the transaction.

***Interest income and expense***

Interest income and expense are recognised in the income statement for all instruments measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Bank estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets has been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

***Fee and commission income***

Fees and commissions are generally recognised on an accrual basis when the service has been provided. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the loan. Loan syndication fees are recognised as revenue when the syndication has been completed and the Bank retained no part of the loan package for itself or retained a part at the same effective interest rate for the other participants. Portfolio and other management advisory and service fees are recognised based on the applicable service contracts, usually on a time-apportionment basis. Asset management fees related to investment funds are recognised rateably over the period the service is provided. The same principle is applied for custody services that are continuously provided over an extended period of time.

***Provisions***

A provision is recognised in the balance sheet when the Bank has a legal or constructive obligation as a result of a past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and the amount has been reliably estimated. If the effect is material, provisions are determined by discounting the expected future cash flows at a rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**2 PRINCIPAL ACCOUNTING POLICIES (continued)**

***Cash and cash equivalents***

For the purposes of the cash flow statement, cash and cash equivalents comprise balances with less than three months' maturity from the date of acquisition, including: cash and non-restricted balances with the Central Bank of Oman, treasury bills and other eligible bills, loans and advances to banks, amounts due from other banks and short-term government securities.

***Derivative financial instruments***

Derivatives are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at their fair value. Fair values are obtained from quoted market prices in active markets, including recent market transactions. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative.

***Financial guarantees contracts***

Financial guarantees are contracts that require the issuer to make specified payments to reimburse the beneficiary for a loss incurred because the debtor fails to make payments when due, in accordance with the terms of the debt. Such guarantees are given to banks, financial institutions or other entities on behalf of the customers.

Financial guarantees are initially recognized in the financial statements at fair value on the date the guarantee was issued. Subsequent to initial recognition, the Bank's liabilities under such guarantees are measured at the higher of initial measurement, less amortization calculated to recognize in the income statement the fee income earned on the straight line basis over the life of the guarantee and the best estimate of the expenditure required to settle any financial obligation arising at the balance sheet date. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgment of management. Any increase in the liability relating to guarantees is taken to the income statement.

***Segment reporting***

The bank's segmental reporting is based on the following operating segments: Retail banking, corporate banking, Investment banking, and Group functions. The segment information is set out in note 24.

**Risk management policies**

**Credit risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Bank attempts to control credit risk by monitoring credit exposures, limiting transactions with specific counterparties, and continually assessing the creditworthiness of counterparties.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Bank's performance to developments affecting a particular industry or geographic location.

The Bank manages its credit risk exposure through diversification of lending activities to avoid undue concentrations of risks with individuals or groups of customers in specific locations or businesses. It also obtains security when appropriate.

For details of the composition of the loans and advances portfolio refer Note 6.

**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**2 PRINCIPAL ACCOUNTING POLICIES (continued)**

**Risk management policies (continued)**

**Credit risk (continued)**

Repossessed properties are sold as soon as practicable with the proceeds used to reduce the outstanding balance of the debt. Repossessed assets are classified as other assets in the balance sheet.

**Interest rate risk**

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in the market interest rates. The Bank is exposed to interest/mark-up rate risk as a result of mismatches or gaps in the amount of interest/mark-up based assets and liabilities that mature or re-price in a given period. The Bank manages this risk by matching/re-pricing of assets and liabilities. The Bank is not excessively exposed to interest/mark-up rate risk as its assets and liabilities are re-priced frequently. The Assets and Liabilities Committee (ALCO) of the Bank monitors and manages the interest rate risk with the objective of limiting the potential adverse effects on the profitability of the Bank.

**Liquidity risk**

Liquidity risk is the risk that the Bank will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at close to its fair value. It includes the risk of being unable to fund assets at appropriate maturities and rates and the risk of being unable to liquidate an asset at a reasonable price and in an appropriate time frame.

The Bank's funding activities are based on a range of instruments including deposits, other liabilities and assigned capital. Consequently, funding flexibility is increased and dependence on any one source of funds is reduced. The Bank maintains liquidity by continually assessing, identifying and monitoring changes in funding needs required to strategic goals set in terms of the overall strategy. In addition the Bank holds certain liquid assets as part of its liquidity risk management strategy.

**Currency risk**

Currency risk arises where the value of financial instrument changes due to changes in foreign exchange rates. In order to manage currency risk exposure the Bank enters into ready, spot and forward transactions in the inter bank market.

The Bank's foreign exchange exposure comprises of forward contracts, foreign currencies cash in hand, balances with banks abroad, foreign placements and foreign currencies assets and liabilities. The net open position is managed within the acceptable limits by buying and selling foreign currencies at spot rates when considered appropriate segregation of duties exist between the front and back office functions while compliance with the net open position is independently monitored on an ongoing basis.

**Fair value of financial assets and liabilities**

The estimate of fair values of the financial instruments is based on information available to management as at reporting date. Whilst management has used its best judgment in estimating the fair value of the financial instruments, there are inherent weaknesses in any estimation technique. The estimates involve matters of judgment and cannot be determined with precision. The bases adopted in deriving the fair values are as follows:

**Certificate of Deposit and current account balances due to and from banks**

The carrying amount of certificate of deposit and current account balances due to and from banks was considered to be a reasonable estimate of fair value due to their short-term nature.

**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**2 PRINCIPAL ACCOUNTING POLICIES (continued)**

**Risk management policies (continued)**

**Loans and advances**

The estimated fair value of loans whose interest rates are materially different from the prevailing market interest rates are determined by discounting the contracted cash flows using market interest rates currently charged to similar loans. The fair value of non-performing loans approximates to the book value adjusted for provision for loan impairment. For the remainder, the fair value has been taken at book value as the prevailing interest rates offered on similar loans are not materially different from the actual loan rates.

**Investments**

Quoted market prices, when available are used as the measure for fair value. However, when the quoted market prices do not exist, fair values presented are estimates derived using the net present value or other valuation techniques.

**Customers' deposits**

The fair value of demand, call, and savings deposits is the amount payable on demand at the reporting date, which equals the carrying value of those liabilities. The estimated fair values of fixed rates deposits are determined by discounting the contractual cash flows using the market interest rates currently offered for similar deposits.

***Directors' remuneration***

The Directors' remuneration is governed as set out in the Articles of Association of the Bank, the Commercial Companies Law, regulations issued by the Capital Market Authority and regulations issued by the Central Bank of Oman.

The Annual General Meeting shall determine and approve the remuneration and the sitting fees for the Board of Directors and its sub-committees provided that such fees shall not exceed 5% of the annual net profit after deduction of the legal reserve and the optional reserve and the distribution of dividends to the shareholders provided that such fees shall not exceed RO 200,000. The sitting fees for each director shall not exceed RO 10,000 in one year.

**Comparative figures**

Certain previous year figures have been adjusted to conform to changes in presentation in the current year.

**13. Subordinated debt**

In order to enhance the capital adequacy and to meet the funding requirements, the Bank has raised capital in the form of subordinated bonds and loans.

**a) Subordinated bonds**

The Bank issued non-convertible unsecured subordinated bonds of RO 50 Million (50,000,000 units of RO 1 each) for a tenor of five years and one month in April 2012 through private placement. The bonds are listed in the Muscat Securities Market and are transferable through trading. The bonds carry a fixed coupon rate of 5.5 % per annum (2014: 5.5% per annum), payable semi-annually with the principal payable on maturity.

**b) Subordinated loans**

The Bank obtained subordinated loans of RO 20 Million, which comply with Basel III requirements for tier-2 capital, for a tenor of five years and six months in November 2015. The loans carry a fixed rate of 5.5 % per annum, payable semi-annually with the principal payable on maturity.

**14 Taxation**

The Bank is liable for income tax in accordance with the income tax laws of the Sultanate of Oman. The assessments for the years up to 2010 are complete. The bank has adequate provisions for the tax liability, if any.

**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**15 Share capital**

The authorized capital is RO 200,000,000 and the issued share capital comprises 1,270,000,000 fully paid shares of RO 0.100 each. The paid up share capital of the Bank was increased during May 2016 by RO 11 Million through a rights issue to the existing shareholders at RO 0.100 baizas per share. RO 14 million has been assigned as capital for the Islamic Banking services of the Bank, which is commenced operations in July 2013:

		<u><b>100</b></u>	<u><b>127,000</b></u>	<u><b>100</b></u>	<u><b>116,000</b></u>

**16 Legal reserve**

According to the Omani Commercial Companies Law of 1974, the Bank is required to transfer 10% of the profit for the year to legal reserve until the accumulated balance of this reserve equals at least one third of the Bank's Paid up share capital. The legal reserve is not available for distribution.

**17 Special reserve**

During 2015 the Bank sold its old head office premises at Ruwi since the head office operations have moved to the new premises at Al Ghubrah. The profit on sale of the premises has been set aside as a special reserve, which requires prior approval of the Central Bank of Oman for any distribution.

## 22 Related party transactions

Oman Arab Bank has a management agreement with Arab Bank Plc Jordan, which owns 49% of the bank's share capital. In accordance with the terms of that management agreement, Arab Bank Plc Jordan provides banking related technical assistance and other management services, including the secondment of managerial staff. The annual fee payable to Arab Bank is 0.3% of the Bank's net profit after tax.

The Bank accepts deposits from its directors and other related concerns including its affiliate banks. Similarly, the Bank provides loans and advances, and other banking services to these parties. These transactions are entered into in the normal course of the Bank's business, on an arm's length basis at open market prices. All loans and advances to related parties are performing advances and are free of any provision for possible credit losses. At 30 June, balances with directors and other related parties were as follows:

<u>Related party transactions</u>	Jun-16 RO' 000		Jun-15 RO' 000

End of service benefits	47	32

NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016

**23 (a) Commitments and Contingent Liabilities**

The Bank is a party to financial instrument with off-balance sheet credit risk in the normal course of business to meet the financing needs of its customers. These financial instruments include standby letters of credit, financial guarantees to third parties, commitments to extend credit and others. The Bank's exposure to credit loss in the event of non-performance by the other party to such financial instruments is represented by the contract value or the notional amount of the instrument. However, generally the credit risk on these transactions is lower than the contract value or the notional amount. In addition, some commitments to extend credit can be cancelled or revoked at any time at the banks option.

The risk involved is essentially the same as the credit risk involved in extending loan facilities and therefore these transactions are subject to the same credit organisation, portfolio maintenance and collateral requirements for customers applying for loans and advances. The outstanding contract value or the notional amounts of these instruments at 30 June were as follows:

	<b>30-Jun-16</b>	<b>30-Jun-15</b>
	<b>RO 000</b>	<b>RO 000</b>
Letters of credit	<b>184,572</b>	309,501
Guarantees	<b>725,740</b>	592,790
	<b><u>910,312</u></b>	<u>902,291</u>

Letters of credit and guarantees amounting to RO 563,072,953 (30 June 2015: RO 896,375,682) were counter guaranteed by other banks.

**(b) Forward foreign exchange contracts**

At the balance sheet date, there were outstanding forward foreign exchange contracts, all maturing within one year, on behalf of customers for the sale and purchase of foreign currencies. The contract values are summarised below:

	<b>30-Jun-16</b>	<b>30-Jun-15</b>
	<b>RO 000</b>	<b>RO 000</b>
Sales	<b>34,946</b>	40,817
Purchases	<b><u>(34,987)</u></b>	<u>(40,862)</u>
Net	<b>(41)</b>	(45)

**(c) Assets pledged as Security**

At the balance sheet date, the bank has not pledged any of its assets as security. (30 June 2014 no assets pledged).

**24 Basic Earnings per share**

	<b>2016</b>	<b>2015</b>
Profit for the year (RO'000)	<b>11,465,081</b>	15,871,881
Weighted average number of shares outstanding during the year	<b>127,000,000</b>	116,000,000
Basic earnings per share (RO)	<b><u>0.019</u></b>	<u>0.028</u>

**NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016**

**Basic Earnings per share (Continued)**

The par value of each share is 100 Baizas. The basic earnings per share is the profit for the period divided by the weighted average number of shares outstanding.

**25 Capital adequacy**

The principal objective of the Central Bank of Oman's (CBO) capital adequacy requirement is to ensure that an adequate level of capital is maintained to withstand any losses which may result from the risks in a bank's balance sheet, in particular credit risk. CBO's risk based capital adequacy framework is consistent with the international standards of the Bank of International Settlement (BIS).

CBO requires the banks' registered in the Sultanate of Oman to maintain the capital adequacy a minimum of 12% based on guidelines of the Basel II accord from December 2010 onwards..The transition period of phasing-in of regulatory adjustments of capital under Basel III in Oman would be from December 31, 2013 to December 31, 2017. CBO requires the banks in Oman to maintain a capital conservation buffer (CCB) of 0.625% in addition to the minimum capital of 12% from 1 January 2014 to 31 December 2016. Additional CCB of 0.625% must be maintained annually between 1 January 2017 and 31 December 2018.

The ratio calculated in accordance with the CBO and BIS capital adequacy guidelines as per Basle II accord is as follows. :

	<b>30-Jun-16</b>	<b>30-Jun-15</b>
<b>Capital</b>	<b>RO 000</b>	<b>RO 000</b>
Tier I	<b>234,932</b>	198,880
Tier II	<b><u>40,877</u></b>	<u>37,264</u>
Total capital base	<b><u>275,809</u></b>	<u>236,144</u>
<b>Risk Weighted Assets</b>		
Credit risk	<b>1,839,051</b>	1,648,594
Market risk	<b>4,750</b>	4,538
Operation risk	<b><u>134,863</u></b>	<u>122,800</u>
Total risk weighted assets	<b><u>1,978,664</u></b>	<u>1,775,932</u>
<b>BIS Capital Adequacy Ratio</b>	<b><u>13.94%</u></b>	<u>13.30%</u>

NOTES TO THE UN-AUDITED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED 30 JUNE 2016
